We all hope Bro. Bell will accept the call.

### FROM THOSE INTERESTED.

Want Only to Be Allowed to Protect Themselves.

So the Everglade trip, while serious in the abstract, was made enjoyable because it couldn't be otherwise. There was a tinge of sadness in it though. It touched one pretty near where the heart strings are attuned to common sympathy. To see an industrious lot of small farmers endeavoring to make a home for themselves in the richest soil on earth, and they not knowing what hour their all will be swept away by a flood of water. They are crying for help. They do not ask charity. They do not ask for one cent. They simply say: "Gentlemen of the State of Florida, vote for a constitutional amendment to drain the Everglades. We will pay the cost. We want it a constitutional amendment, though, so petty legislators will not tamper with the act every few years. We want it beyond speculation. We want an act as firm as the government itself." That is all they ask.

After passing through sixty miles of high land along the Caloosahatchee, where even now the river is over some of the banks, after passing through miles of rich muck land, with scarce a foot of water over it now—land that should be seven feet above high water—I pledge my support, humble as it may be, to help the people now inhabiting this beautiful country, and to help open to settlers more acres of land than is now under cultivation in the State.—St. Petersburg Independent.

### Last We

forget—Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by all druggists.

## Local Happenings at Stetson University

There have been complaints made of the College spirit this year, but only the rankest cynic could complain of the spirit shown at the students' mass meeting last Wednesday. The meeting was called by the Athletic authorities to place before the students the fact that last year's accounts show a deficit which would be increased before the end of this football season. The students were asked to subscribe \$200 to meet this situation. They responded with a subscription that now totals over \$300.

Mr. Hamlin, president of the Athletic Association, Professor Baldwin, Captain Botts and others addressed the meeting and aroused considerable enthusiasm by recounting some of Stetson's athletic achievements, and making appeals for the future. At this point, "Uncle Dan" Blocker started the ball rolling by saying "Mr. Chairman, I must be excused, but put me down for \$10."

Two fraternities, the Delta Gamma Delta and Phi Kappa Delta, deserve appreciation for the services they rendered to the raising of the sum. Each fraternity subscribed \$50 besides individual pledges by their members.

Within the next week the subscription will go much beyond \$400 and athletics will be guaranteed against a deficit for the coming year.

The first line up for scrimmage took place Thursday. Since then the team has been up against the

reserves every day. There are several good men on the second team, but as a whole it is weak, the men not coming out regularly. Saturday two men from the first squad had to be put in the second to form a line. The second team man can't get too strong an idea of his importance, for a second team is a very necessary prerequisite to the making of a first. We can only urge the second men to come out and give the first the best they've got.

A meeting of the Athletic Association was held Wednesday at which the resignation of Fred. Botts as foot ball manager was accepted and J. L. Clayberg was elected. R. P. Hamlin was elected captain and manager of the tennis team.

Selden, the plucky quarterback of the second team, was out of the game for a day or two with a dislocated finger. Sadler, also of the second, has a stiff arm.

The attendance at the practice has been improving but it should be better. Remember that the first game comes the day after tomorrow and practice these days is strenuous and exciting.

If you see a man flying around with a pad and pencil, don't ask questions. He is only a reporter taking notes on the game.

Come out to the game against the Army team, Friday.

### Local Briefs.

Mr. Byron Weeks of Tampa entered the University last Thursday and is to stay in Stetson Hall.

Miss Lily May Cleveland left Saturday to attend the wedding of Miss Annie Jones, of Titusville, Fla.

Nearly all the Chaudoin girls attended the B. Y. P. U. reception on Friday night, and they report a delightful time.

Miss Gussie Moffatt, a member of the class of '06, is teaching at Orange City. While visiting her home last week, she did not forget the "Lit."

Miss Alberta Clarkson, a former Stetson student, who is now living in Lake Helen, Fla., spent several days of last week in town, visiting friends.

Mr. Roscoe Glass, the genial assistant recorder, was host at a delicious spread the other evening in Conrad Hall. Such of his friends as were awake, joined him in the proper disposal of various and toothsome delicacies.

Miss Edith Bond entertained at dinner last Wednesday her sister, Mrs. Compropt, who is better known to old students here as Miss Sophie Bond. Mr. Compropt, who was once the S. U. football captain, now has a position at Lake Helen.

Miss Bessie Coulter left on Saturday for Titusville where she is to be a bridesmaid at the wedding of Miss Annie Jones and Mr. Phil. Wright. Miss Jones was a popular Chaudoin girl last year. She has a number of friends here who extend their best wishes.

Miss Olive Mae Hunsaker, director of the shorthand department, arrived on Wednesday. Her delay was caused by her mother sustaining a sudden and severe attack of appendicitis. Miss Hunsaker expresses herself as being very glad to get back to Stetson, and the many current expressions, by the students, of regret over her absence furnish ample proof that the "gladness" is mutual.

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75 cents. F. J. CHENEY & CO. are the best.

Miss Stella Odum and sister were in DeLeon Saturday and Sunday visiting Miss Orvis Purcell.

There would have been more drainage men to hear the Governor last Friday but we never got notice until it was too late to go. We do not know where to lay the blame, but we suppose with the post office. They ought to see that the notices are sent out several days beforehand so as to have them posted in time. Our postmasters are too slack, and should see that we get our mail on time.

It may be that the Czar may yet turn over in hand the possibility of having Secretary Taft organize a provisional government in Russia.
